SKIN OF TEARS are part of the great Punk Rock circus since 1991 and belong to the pioneers of Melodic Core in Europe. Fast and diversified, highly dynamic and straight to the point they are galloping through all the different styles of their genre, and always with a hookline as catchy as a cold. Big stages, small clubs, they know it all. SKIN OF TEARS always deliver a highly energetic show far beyond boredom but with loads of fun playing their music.

Their current album "Fake my day" surprised fans and critics with never expected freshness and joy of playing. SKIN OF TEARS are on the road for more than 25 years and played themselves with skills and sympathy into the hearts of all kinds of punk rockers.
